THE Y CIRCULATOR. [1963] 54p 22refs
Order from SLA $5.60 TT-64-14634

Trans. of [Archiv der Elektrischen Übertragung] (West Germany) 1963, v. 17, p. 153-176. (Abstract Available)

DESCRIPTORS: *Microwave equipment, *Waveguides, Scattering, Field theory.

Under the condition that losses are absent, the paper derives statements concerning the magnitudes of the scattering matrix elements for the Y-circulator which has lately found many applications. A field-theoretical analysis is carried out for a waveguide Y-circulator under some simplifying assumptions. The circulator effect can accordingly be explained by interference of two rotary E_{110}-fields in the circular-cylindrical cavity. (Author)
